Conclusions

This paper shows Letter No. 1 of ISVHAAI AI Society Letters. ISVHAAI is meant for improving and applying VHAAI for solving various problems. 25 applications of VHAAI are shown in this article. The data for extracting 25 problems is obtained by Google AI Overview which returned data when searched on Google Search.

Appendix

The below data is obtained by searching “25 INDIAN SOCIETY PROBLEMS” on Google and Google AI Overview returned the below data:

Indian society faces a multitude of complex challenges including poverty, inequality, unemployment, corruption and social issues like gender inequality and caste discrimination. Environmental concerns, overpopulation and lack of access to quality education and healthcare also pose significant hurdles to progress¹⁻⁷.

Here's a more detailed look at 25 critical problems:

Socio-economic issues

- **Poverty:** A large percentage of the population lives below the poverty line, struggling to meet basic needs^{1,8}.
- **Unemployment:** A significant number of people lack jobs, leading to economic hardship and social unrest^{1,9,10,11}.
- **Economic inequality:** Wealth is concentrated in the hands of a few, leading to social stratification and tensions^{1,12-14}.
- **Corruption:** Widespread corruption undermines governance, hinders development and erodes public trust^{1,15,16}.
- **Inflation:** Rising prices of essential goods make it difficult for many to afford basic necessities¹.
- **Child labor:** Children are often forced into work due to poverty and lack of access to education^{1,17-20}.
- **Food Insecurity:** Millions face hunger and malnutrition, despite India being a major food producer^{1,21}.

Social Issues

- **Gender inequality:** Women face discrimination in various aspects of life, including education, employment and political participation^{1,2,5}.
- **Caste discrimination:** The caste system continues to perpetuate social hierarchies and inequalities^{1,22,23}.
- **Communalism:** Religious and communal tensions often lead to conflict and violence^{1,24-26}.
- **Violence against women:** Domestic violence, sexual assault and other forms of violence against women are prevalent^{1,26}.
- **Child abuse:** Children are vulnerable to physical, emotional and sexual abuse^{1,27,28}.
- **Social deviance:** Drug abuse, alcoholism and other forms of social deviance are growing concerns²⁷.
- **Illiteracy:** A large portion of the population remains illiterate, hindering individual and national progress^{1,29}.

Environmental issues

- **Environmental degradation:** Pollution, deforestation and resource depletion are major environmental problems^{3,30,31}.
- **Water scarcity:** Many regions face water shortages, impacting agriculture and daily life^{3,32}.
- **Climate change:** India is vulnerable to the impacts of climate change, including extreme weather events^{30,33-35}.

Other critical issues

- **Overpopulation:** Rapid population growth strains resources and infrastructure^{1,36-38}.

- **Terrorism:** Terrorist activities pose a threat to national security and stability^{1,17,39,40}.
- **Health Issues:** Limited access to quality healthcare and rising mental health issues are major concerns^{5,41}.
- **Regional Disparities:** Significant differences exist between different regions in terms of development and opportunities^{27,42-45}.
- **Migration:** Rural-to-urban migration puts pressure on urban resources and infrastructure^{2,46}.
- **Crime and Delinquency:** Crime rates, including property crime and violent crime, remain a concern^{2,3,27,47}.
- **Lack of Sanitation:** Inadequate sanitation facilities contribute to the spread of diseases^{1,17,48}.
- **Dowry:** The practice of dowry continues to be a social evil, leading to violence and harassment^{3,24,49}.
